CLASS 10 · ICSE · SELINA CONCISE MATHEMATICS · FORMULA BANK

Chapter 1: GST (Goods and Services Tax)

Every formula and result of the chapter on one sheet

1	GST	$\frac{\text{rate} \times \text{taxable value}}{100}$
2	Taxable value with a discount	List price $-$ discount
3	Amount of the bill	Taxable value $+$ GST
4	Sale within a state	CGST $=$ SGST $= \frac{1}{2} \times$ GST
5	Sale between states	IGST $=$ GST at the full rate
6	Price before tax	$\frac{\text{amount of the bill} \times 100}{100 + r}$
7	Input GST	Tax paid by a dealer on purchases
8	Output GST	Tax collected by a dealer on sales
9	Net GST payable	Output GST $-$ input GST
10	Tax on value added	Net GST $=$ rate $\times$ (selling price $-$ cost price), when both are taxable values
11	Discount	$\frac{\text{discount } \% \times \text{list price}}{100}$
