CLASS 8 · ICSE · SELINA CONCISE MATHEMATICS · FORMULA BANK

Chapter 22: Data Handling

Every formula and result of the chapter on one sheet

1	Range	Highest value − lowest value
2	Frequency	Number of times an observation occurs
3	Class size	Upper limit − lower limit
4	Class mark	$\frac{\text{upper limit} + \text{lower limit}}{2}$
5	Exclusive class a–b	Includes a, excludes b
6	Central angle	$\frac{\text{component}}{\text{total}} \times 360^\circ$
7	Value from an angle	$\frac{\text{angle}}{360^\circ} \times$ total
8	Percentage to angle	Percentage $\times\ 3.6^\circ$
9	Sum of central angles	360°
10	Histogram	Bars without gaps, for continuous classes
11	Bar graph	Bars of equal width with equal gaps
12	Total frequency	Number of observations
