CLASS 8 · CBSE · GANITA PRAKASH PART 1 · FORMULA BANK

Chapter 4: Quadrilaterals

Every formula and result of the chapter on one sheet

1	Angle sum of a quadrilateral	360°
2	Rectangle	All angles 90°; diagonals equal and bisect each other
3	Square	All angles 90° and all sides equal; diagonals equal, bisect each other at 90° and bisect the angles
4	Parallelogram	Opposite sides parallel and equal; opposite angles equal; diagonals bisect each other
5	Adjacent angles of a parallelogram	Add up to 180°
6	Rhombus	All sides equal; diagonals bisect each other at 90° and bisect the angles
7	Side of a rhombus	$\sqrt{\left(\frac{d_1}{2}\right)^2 + \left(\frac{d_2}{2}\right)^2}$
8	Kite	$AB = BC, CD = DA$; BD is the perpendicular bisector of AC
9	Trapezium	At least one pair of parallel sides; angles between the parallel sides on the same arm add up to 180°
10	Isosceles trapezium	Non-parallel sides equal; base angles equal
11	Diagonals bisect each other	Parallelogram
12	Diagonals equal and bisect each other	Rectangle
13	Diagonals bisect each other at 90°	Rhombus
