OLYMPIAD · MENTAL ABILITY · OLYMPIAD PREPARATION · FORMULA BANK

Chapter 3: Coding and Decoding

Every formula and result of the chapter on one sheet

1	Forward shift	new position = old position $+k$
2	Backward shift	new position = old position $-k$
3	Reverse alphabet	position n becomes $27 - n$
4	Sum of positions	A = 1, B = 2, ..., Z = 26; add the positions
5	Decoding	do the opposite of the coding step
