CLASS 8 · ICSE · SELINA CONCISE MATHEMATICS · FORMULA BANK

Chapter 15: Linear Inequations

Every formula and result of the chapter on one sheet

1	Add or subtract	Sign unchanged
2	Multiply or divide by a positive number	Sign unchanged
3	Multiply or divide by a negative number	Sign reversed
4	Interchange sides	$a > b$ means $b < a$
5	Replacement set	The set from which values of x are taken
6	Solution set	Values in the replacement set that satisfy the inequation
7	Natural numbers	$N = \{1, 2, 3, \ldots\}$
8	Whole numbers	$W = \{0, 1, 2, \ldots\}$
9	Integers	$Z = \{\ldots, -1, 0, 1, \ldots\}$
10	Included end point	$\leq$ or $\geq$: solid dot
11	Excluded end point	$<$ or $>$: hollow circle
12	Combined inequation	Do the same operation to all three parts
