Chapter 2: Polynomials

Previous year board questions, topic-wise: 3 questions

The tag after each question gives the board examination year and the marks. Solutions are in a separate PDF with the same question numbers.

1 Zeroes and coefficients of a quadratic polynomial

1. The zeroes of $p(x) = 2x^2 - k\sqrt{2}x + 1$ add up to $\sqrt{2}$. Find k . (a) $\sqrt{2}$ (b) 2 (c) $2\sqrt{2}$ (d) $\frac{1}{2}$
CBSE 2024, 1 mark
2. Each zero of $x^2 + px + q$ is double a zero of $4x^2 - 5x - 6$. Find p . (a) $-\frac{5}{2}$ (b) $\frac{5}{2}$ (c) -5 (d) 10
CBSE 2024, 1 mark

2 Zeroes from the graph

3. Assertion (A): a polynomial whose graph touches the x -axis at exactly one point cannot be quadratic. Reason (R): a polynomial of degree n , with $n > 1$, has at most n zeroes. Choose:
(a) A and R are both true and R explains A. (b) A and R are both true but R does not explain A.
(c) A is true and R is false. (d) A is false and R is true. CBSE 2024, 1 mark

These questions are based on questions asked in past board examinations. They have been reworded by MathSetu, the figures are redrawn, and the solutions are MathSetu's own. MathSetu is an independent study resource and is not affiliated with or endorsed by CBSE, CISCE, NCERT or any publisher.
